Gravity Roller Racks & Shelving To Meet All Your Needs!

The bow truss system combined with welded front and side stops eliminates shelf sag add the heavy duty Anti-Sway brace and the Heavy-Duty Wall Brace and you will see why the CDS Shelving system is the strongest system on the market today. Increase capacity and gravity feed means less labor increased sales and increased profits. The shelf is available in 37", 43" and 49" depths and you can combine both size shelves to work in the same door. Roller track shelving is currently only available for 30" wide doors.

Easy loading Roller Rack Shelf make stocking shelves less work!

VERTICAL CAN & BOTTLE SHELF
Need a shelf for your single cans and bottles and want it in the same set as your roller shelf? CDS manufactures a shelf with welded side stops, adjustable front stops and lane dividers that will fit in the same post systems with either the 37", 43" and 49" roller track shelf.

~~ROLLER RACK SHELF~~
~~Eliminate the need to constantly face your product, increase the holding capacity, combine both sizes and the Vertical Can and Bottle shelf for the flexibility you need to minimize your labor cost and maximize your profits.~~

• Heavy-Duty Wall Brace

• Heavy-Duty Anti-Sway Brace
