

RACKS & SHELVING

Rolling Beverage Rack
Perfect to add even more product display behind an all-glass entry door.

CDS Shelving:

Our exclusive shelving design provides a full width non-notched shelf which gives you increased product facings and storage. The bow truss system eliminates shelf sag. The Anti-Sway Brace and the Heavy-Duty Wall Brace, make the CDS shelf the strongest shelving system on the market.

The shelf is available in 37", 43" and 49" depths and you can combine both size shelves to work in the same door.

Support your shelves with the Heavy-Duty Wall Brace and the Anti-Sway Brace from CDS. Designed to easily attach to the racks with a couple of bolts.

Shelves

We carry the perfect assortment of shelves that will accommodate and properly display your products. Available in white or black finish.

Heavy-Duty Wall Brace

Heavy-Duty Anti-Sway Brace

Corner Shelf

Connects 2 lineups meeting at an out-side corner.

Full Shelf

Full shelf width for maximum product facings & storage.

Baskets

Ideal for bulky items or mass displays.

Super Duty Shelf

Full shelf width for heavier products and storage. Welded side stops, adjustable front stops and lane dividers that will fit in the same post systems with either the 37", 43" and 49" roller rack shelf.

Verticle Can/Bottle

Excellent for merchandising individual loose cans or bottles.
